

Probe Line Leader Checklist:			
Who is my Boss?			
Where to search?			
Who is working for me? (appropriate clothing?, ski ability?)			
Equipment: probe poles, shovel, guide rope			
What method should I use?			
Spot probing			
Traditional Line / Guide Rope (knots every 50cm/18", palm to palm)			
Serpentine			
Show your crew what you want them to do! / Who is going to shovel?			
Tell your crew where the safe zone is; in case of another avalanche			
Get Going!!!			
Report your progress including a prediction of how fast to cover how much.			
Keep your people active, warm, hydrated & fed to maximize your team's productivity			
When your boss says you are done			
Check to make sure your people are OK and injury free			
Account for the equipment your team used and return it to service			
Complete any needed paperwork
